

Nuevo Leon

the-place-to-be

for Industry 4.0 in America

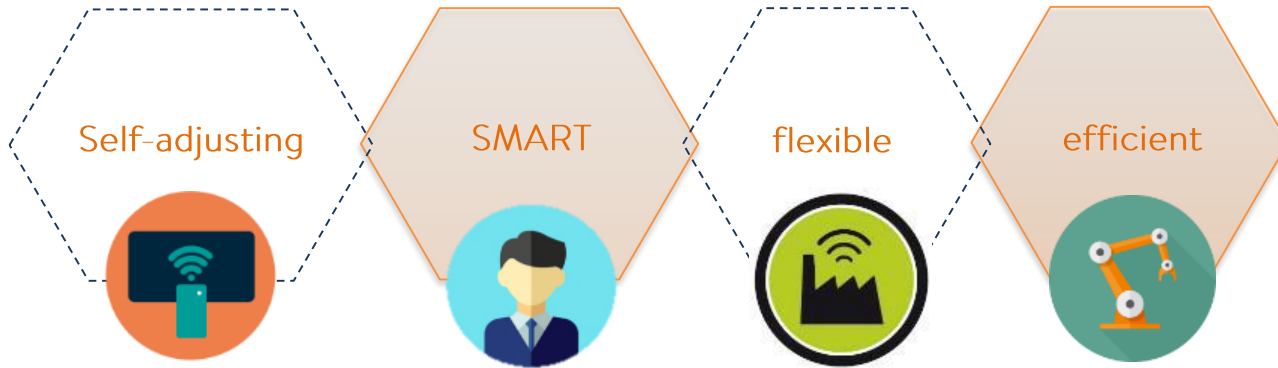

The industrial world we know has been previously defined by
three technological revolutions

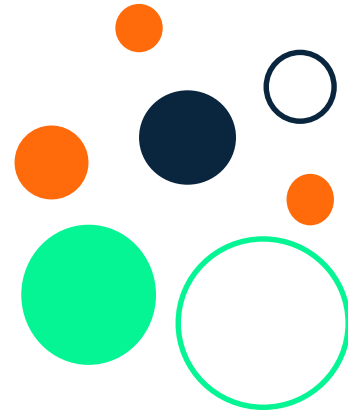

The Fourth Industrial Revolution

Is the convergence of CYBER-PHYSICAL systems

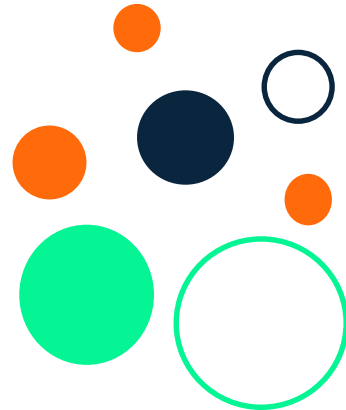

through **Digitalization.**

WHAT IS MIND4.0 MONTERREY?

Industrial acceleration platform for entrepreneurs with real solutions of Industry 4.0 Technologies, as part of an intense collaboration program of work and mentoring by allied entrepreneurship nodes and through industrial linkage with leading companies in Nuevo Leon to accelerate their developments boosting advancement of all participants.

WHO CAN APPLY TO MIND4.0 MONTERREY?

MIND4.0 Monterrey is exclusively for legally incorporated scaleups all over the world with Industry 4.0 solutions that have completed their technological development stage and in search for industrial scale up opportunities and access to global market with leading companies.

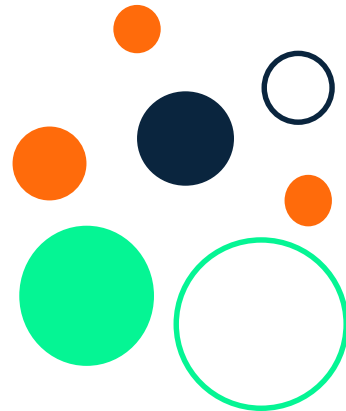

If your scaleup company has completed product/process development stage or recently launched a technology based on Industry 4.0 Solution, you're ready to take the next step at MIND4.0.

COLLABORATION WITH PARTICIPATING COMPANIES

Registered companies (called scaleups) are required to propose Industry 4.0 solutions responding to participating companies needs, challenges and in search of best matches and signing of *collaboration agreements* to develop real projects with monetary compensation (payment).

During the phase of best match, finalist scaleups and participating companies will refine scope of projects and solutions in preparation for *collaboration agreements*.
